

Corporate Finance Outsource Inc.

Build Your Corporate Superhero Team

We know time and money are precious, so we help you move your company/business to the next level. Our experience allows us to be efficient, to give new creative ideas or solve problems. Because we work on a fractional model, you don't have to break the bank to take advantage of our expertise.

Who We Are

We are a team of experienced C-suite executives, marketing specialists, accountants, and bookkeepers who have run and guided organizations of all types and sizes, from publicly listed, to private companies, to family trusts, to charities. Regardless of your organizations size, we will lead you to the optimal structure and platform to grow from. Our approach is unique, holistic and most importantly, totally customized. Instead, we come in and take operational roles ranging from CFO to CMO. Our involvement is tailored to your needs whether it's a periodic call, a one-day-a-month engagement or a full-time executive position. It's up to you.

Vision and Mission

We have the capability, professional network and experience to provide guidance at a high strategic level to solve critical problems. We've worked with enough companies over the years that we have the ability to quickly identify what needs fixing and we fix it for you. We go one step further and recruit our own replacements to fill long-term needs.

Our background knowledge has allowed us to make sound decisions and advise on M&A, valuation processes, go public strategies, capital structuring, tax planning, operational efficiencies, growth strategies and collaborative team building.

For us, it's all about results, not process. We're not here to write long reports or spend a year developing strategic documents. We do the work in order to elevate companies in a wide range of industries. We provide our clients with discernable results and implement processes and systems that support ongoing growth.

Your success is our success.
